November Meeting Pictures

We had a fun and productive meeting with the folks from Phasecom. We learned about feed lines and the effects of poor crimping and cable damage on transmission quality, and learned how to use the tools that the club will soon own to make new cables for future projects. We also tested each completed feed line with the equipment that Dan brought. The new feed lines we made will go to the repeater site soon for use as jumpers.

Below are a few pictures. More can be viewed in full size on the IARC website at:
